

August 17, 2018

Dear parents:

We are off to a great start in Third Grade! I am honored to be given the gift of teaching your child this year. They are a wonderful group of students, and I am looking forward to our year of learning and growing together. I would like to send class newsletters out via email each week, starting next Friday. I will also be posting the class newsletters to our class website. You can access newsletters on our class website. The address is:

<https://jessica-luebbe.wixsite.com/grade3>

As soon as I have the “go ahead” to share photos, I will start adding photos and videos to the site. If you have anything you would like added, feel free to send me an email!

Starting next week, our class will read intentions and carry the gifts during mass. Attached is your child’s intention. Please read through this together at home. We will also practice in class. Every child will read next week. The serving schedule is as follows:

Monday: Ella & Mira, Tuesday: Jason & Connor, Wed: Gage & Kelan, Thurs: Nathan & Max and Friday: Sydney & Harley.

Thank you for generously volunteering to drive for field trips. As of now, we do not have any volunteers for the Plum Creek Literacy Festival on October 5. If you could help drive for this field trip, let me know.

Student planners will start coming home today. These are used more in the higher grade levels, but we will start using them to “practice” for next year. Please make sure to send them back to school each day. The yellow home to school folders have been replaced by green folders this year that were donated to our school. Please try to check the folder each evening. I will check the folders each morning after mass. You can send things to me in the folder, but because I won’t check them until after mass, you might want to email any information that I should see before mass. I will check email each morning before the students arrive and periodically throughout the day if time allows. My email address is **jessica-luebbe@cdolinc.net**.

The students will have their first math homework assignment today. It is very short, but they have been begging for homework, so I obliged them! They have also been asking for AR time to begin. We will begin this next week, as soon as it is set up and ready at school. They are very excited. Today we visited the library, so they are ready to earn those AR points!

Please let me know if you have any questions or concerns! I am happy to help!

Until next time,

Mrs. Jessica Luebbe
